### Policy 5530.01 – Student Drug Testing

#### IMPLEMENTATION GUIDELINES

- H. **Obtaining Samples.** The test specimen shall be obtained in a manner designed to minimize intrusiveness of the procedure. In particular, the specimen shall be collected in a restroom or other facility behind a closed stall/door. The drug testing service shall provide an employee to collect the samples subject to drug testing. This individual will also monitor the collection of samples. If deemed necessary, the representative of the drug testing service may request that the school administrator provide personnel to assist with monitoring as samples are collected. The monitor shall not observe the student while the specimen is being produced, but the monitor shall be present outside the stall/restroom to listen for normal sounds of urination in order to guard against tampered specimens and to ensure an accurate chain of custody. The monitor shall verify the normal warmth and appearance of the specimen.

Any eligible student selected randomly for urine drug testing who is not in school on the day of testing will be tested at the next available testing time.
