BOARD OF EDUCATION

Ed Morgan, President

Matthew Trimble, Vice

President

Bernard Hott, Member

Corena Mongold, Member

Kim Poland, Member

In response to the recent declaration of a state of emergency regarding our Special Education department by the State Board of Education, the Hampshire County Board of Education discussed the issues at hand during their Monday night meeting.

Acknowledging the gravity of the situation, the board is committed to a continued cooperation to identify and resolve any issues affecting our Special Education programs. We understand the importance of providing quality education and support to all students, including those in our Special Education department. Our primary focus is on identifying the root causes and implementing swift and effective solutions to rectify any shortcomings in our Special Education programs.

The Hampshire County Board of Education is actively collaborating with the State Education department to address concerns and implement effective solutions. We remain dedicated to ensuring the well-being and educational success of every student in our district.

We understand the concerns within our community and want to assure parents, guardians, and stakeholders that we are fully dedicated to transparency throughout this process. Regular updates will be provided as progress is made, and we encourage open communication to address any further questions or concerns.

We appreciate the community's understanding and patience as we work diligently to rectify the situation. Further updates will be communicated as progress is made.

Sincerely,

Hampshire County Board of Education
